FIRST GOLD

A dwarf hop bred at Wye College, on extensive farm trials in 1995. First Gold is from a cross-pollination of WGV with a dwarf male.

Much of the flavour of WGV seems to have been retained but with an added extra citrus quality, produces a well-balanced bitterness and a fruity, slightly spicy note in ales. A zesty orange quality has been observed in many beers brewed using this variety.

IN THE BEER

IN THE RUB

TECH SPECS

Alpha Acid	6-9%
Beta Acid	3-4.1%
