

## ► MOST<sup>™</sup>

Most<sup>™</sup> is a sister to both Jester® and Olicana® and is the first Charles Faram Development Program hop to be grown outside of the UK. It was released commercially in 2020.

Versatile and clean with a unique flavor profile, Most<sup>™</sup> can display red fruit characteristics in darker beers, and adds stone fruit and citrus when used as a late or dry hop in pale brews.

**IN THE BEER**
