

HARLEQUINTM

A daughter of Godiva™, and grand-daughter of Jester®, Harlequin™ was named after its remarkably patterned bracts. It was first offered commercially in 2019.

Harlequin[™] bursts with New World aromatics whilst maintaining a subtle hint of UK terroir. Delicate and tropical in pale beers; it shows unique marmalade and candied fruit notes when used with colored malts.

IN THE BEER

TECH SPECS

Alpha Acid	9.5 - 12%
