

CHARLES FARAM

1865

TARGET

Target was released in 1972 and was the first result of a Wye College breeding programme to produce a wilt tolerant high alpha variety. An excellent high alpha variety which gives a robust bitterness. Tends to be too harsh for aroma purposes late in the boil but has produced very good results when used as dry hop pellets in the cask.

IN THE BEER

SPICE

CITRUS

WOODY

IN THE RUB

PINE

ORANGE

CEDAR
