**VISTA**

Previously known as USDA-074, Vista was bred by Dr. John Henning. Named for commercial release in 2021, it had been under development since 2006. Vista's strength is in its versatility. Its flavor and aroma profile are unique enough to stand on its own and subtle enough to mesh well with other hops. In heavy dry hop additions, it can provide notes of mango and even subtle strawberry aromatics.
