

CHARLES FARAM 2025 CROP HOPS FOR CONTRACTS

This is our range of hops from the 2025 harvests. There may be "off menu" options available so please ask if you'd like something that isn't listed here.

As always, we recommend the use of hop contracts so our grower partners, our production team and your beers all benefit from a well-managed supply chain, to have the right amount of hops, mitigating foreseeable shortages and reducing wastage.

At the same time, we know brewers need to have access to a healthy spot market.

We will evaluate contract requests to help make sure that volumes are tailored to your needs. Occasionally, less is more!

Smooth, peaceful, fair and with the best possible choice. Fairer Faram's.

More hop contract info can be found at:
